Keep the ETA Learning; maybe move it up a bit, change the font

Marketing strategist's idea: Change words underneath ETA Learning

Hero Headlines:

Help your child understand the work—not just finish it.

(motto) Hands-on learning. Foundations that last. Success beyond the classroom.

Small-group, **3:1** tutoring ensures individualized attention.

Subhead:

A blend of **Montessori-inspired learning with structured academic support**.

Each child receives a **personalized plan, take-home reinforcement, assessments, and clear progress updates every session**.

- Need help to make this questionnaire; THIS IS FOR sepeghh@gmail.com
    - What's Your Child's ETA to Their Learning Goals? Answer 5 quick questions so we can recommend their ETA and their ideal package.
    - 1. Child's Name
        - Short answer
    - 2. What is your child's primary goal?
        - Select all that apply
            - Academic skills
            - Confidence & motivation
            - Focus & learning habits
            - Independence & self-regulation
            - Behaviour & social skills
            - Overall development
    - 3. When would you like to see meaningful progress?
        - Choose one.
        - Within 3 months
        - Within 6 months
        - Within 12 months
        - Long-term / ongoing
    - 4. How often can your child attend ETA sessions?
        - Choose one.
        - Once a week
        - Twice a week
        - 3+ times a week
    - 5. How much support can you provide at home?
        - Choose one.
            - Little to none — I cannot reliably support homework.
            - Minimal — I can ensure homework is completed.
            - High — I can provide assistance and monitor homework.
    - 6. Program Placement
        - Your child's age provides a baseline for program placement. Your answers and our free assessment will determine the best level within a specific ETA program, based on cognitive readiness.

- ETA Tots: 18 months–2 years
- ETA Tinies: 2–7 years
- ETA Tykes: 7–11 years
- ETA Tweens/Teens: 11+ years
    - Programs are broken up based on Psychological Phases of Cognitive Development. We cannot move children into age categories beyond these boundaries. Programs are made to sufficiently challenge advanced learners in a holistic manner, while preparing them for their upcoming years.

Proof strip: 18 months - 18 years*+ 3:1 student-to-tutor ratio • Take-home materials included • Parent portal • In-person Tutoring * Online Tutoring(7+)

ETA Programs

ETA Tots | 18 months–2 years

- **30 min paid session + 15 min free play** *(parent must be present for full 45 minutes)*
- **Montessori-based, play-based, and music-based learning**
- Exposure to **letters, numbers, tracing, real-world concepts and 1-step instruction**
- Program develops **classroom etiquette, communication, and fine-motor skills**
- Fosters **independence, curiosity, confidence, and a love of learning**

ETA Tinies | 2–7 years

- Montessori-based, play-based learning with worksheets
- Builds foundations in **literacy, numeracy, writing, problem-solving & real-world skills**
- Introduction to **abstract, complex concepts** up to 2 grade levels ahead
- Program develops **independence, curiosity, confidence, and critical thinking**
- Expectations foster **self-regulation, responsibility, and resilience**

ETA Tykes | 7–11 years

- Montessori-based learning with worksheets
- Supports students in **mastering abstract concepts in literacy, writing, and arithmetic**
- Builds **critical thinking, problem-solving skills, and real-world connections**
- **Expectations heightened to foster initiative, curiosity, leadership, test-taking skills, time management, and effective study habits**

-

ETA Tweens & Teens | 11+ years

- Worksheet-focused academic program supported by Montessori philosophies
- Supports **academic advancement and filling foundational learning gaps**
- Introduces **middle and high school-level concepts**
- Builds **real-world skills, including financial planning and professional communication**
- **Fosters leadership, discipline, initiative, proactive study habits, curiosity, critical thinking, and test-taking skills**

Groups are based on formal cognitive stages of development rather than created age ranges. Since every child develops differently, placement within the program is flexible and tailored to each learner.

FAQ

What is Montessori-based tutoring?

Our tutoring approach incorporates Montessori principles and Montessori materials into the program**. This design particularly shapes children's behaviour, discipline, independence, focus and approach to learning.**

Montessori materials and hands-on activities engage multiple areas of the brain through hands-on, visual, and tactile activities, offering an interactive alternative to traditional pen-and-paper learning. These methods promote **deeper conceptual understanding and retention** and can be particularly beneficial for **neurodivergent learners**. Many parents even choose to purchase these beloved materials for home use, reinforcing learning and making homework more fun!

What ages and grade levels do you work with?

ETA supports learners **18 months to 18 years**, from toddlers through high school. Our **mixed-age classrooms** encourage leadership and role-modeling in older students while providing positive peer learning for younger children.

Young children must be potty trained or wear a diaper during sessions.

How do you personalize tutoring for each child?

Every child begins with an **enrollment assessment** to identify their strengths, areas of need, and learning gaps. We then create a **personalized curriculum**. Every session, **lesson plans and homework are modified** based on each child's progression and needs. Ongoing formal assessments allow us to track progress and tailor plans as they grow.

No two children follow the same program.

Can you support both struggling and advanced learners?
Yes**.** The balance of **enhancing and advancing is at the heart of our approach**—and is why our enrollment assessment is vital to build the student's curriculum.

The average ETA student is introduced to concepts **up to two grade levels ahead**, **while filling the gaps in their foundation.**

How do you assess progress and communicate with parents?
Our **3:1 student-to-teacher ratio** allows us to closely observe learning supported with **homework review, and formal assessments**.

Parents receive **verbal updates and written session reports after every session**, available 24/7. Our system also provides 24/7 access to **financial account information and records** for added transparency.

Does my child need to attend a Montessori school?
No. Our Montessori-inspired approach is designed to make the benefits of Montessori learning more accessible to families, regardless of the type of school their child attends.

Students from **non-Montessori schools benefit from the alternative approach** to learning, **building confidence, independence, and comfort in their school classroom**.

Children who attend Montessori schools may especially benefit from the **familiarity and overlap** between our approach and their classroom experience.

How often should my child attend and is homework mandatory?
We recommend **two sessions per week with regular homework** to maximize reinforcement, retention, and progress. This is the foundation of our program and is designed to provide consistent practice between sessions.

Our experience shows **clear, efficient and consistent results when families follow our recommended regimens.**

What is the cancellation or rescheduling policy?

Cancellations made after 9:00 AM on the day of a session will be charged in full. No exceptions.

Make-up sessions can be booked at any time by contacting admin.
